

SmartOne makes the Impossible Possible

Creating a toilet tissue system with greater hygiene benefits, high capacity dispensing and presented in a contemporary design was the impossible task we were set by customers.

New SmartOne encompasses the needs of businesses through a unique system which reduces wastage and lasts significantly longer between refills. In addition its stylish design available in two colours ensures the unit complements any washroom interior.

SmartOne's single sheet dispensing technology also increases customer satisfaction by eliminating cross-contamination. It provides single sheet hygienic 2 ply tissue every time.

Makes the Impossible Possible

SmartOne Toilet Tissue System

Makes the Impossible Possible

Features & Key Benefits

SmartOne's unique features create real benefits for businesses, providing maximum efficiency, combined with sleek design and hygienic dispensing.

Ultimate Hygiene

- Fully enclosed roll
- Users only touch the sheet taken, helping to reduce cross-contamination
- No waste, no mess, just smart, tidy washrooms

Maximum Efficiency

- High capacity toilet tissue dispenser
- Lasts longer between refills than any other dispensing system
- Ideal for high traffic washrooms with multiple cubicles
- Single sheet dispensing reduces consumption

Customer Satisfaction

- Easy to use - the next sheet is presented and ready to take
- Convenient sheet size is ideal for use
- Peace of mind from a hygienic dispenser

Design

- Contemporary design style
- Complements washroom interiors

“The hospital’s washroom must prevent cross-contamination”

Design & Maintenance

The design inspiration for SmartOne came directly from our customers. They wanted a product which catered specifically for their needs and we set about developing a system which is more hygienic and stylish than any other toilet tissue dispenser.

SmartOne is available in two colourways which match perfectly with Lotus Professional Foam Soap and enMotion products to suit any washroom decor.

- **Simple installation**

The fixing panel comes with easy to install instructions and the durable lightweight manufacture is easily positioned even in the smallest washroom or cubicle.

- **Efficient Maintenance and Service**

The dispensers have a translucent cover for checking the contents without opening. The long lasting roll significantly extends the time between refills.

- **Convenient size**

SmartOne's compact size 270 x 270 x 170mm allows the unit to work effectively in even the smallest cubicles.

- **Secure Dispenser**

Paper is fully enclosed in the lockable, robust dispenser. However, should you wish to allow emergency access through the aperture, simply remove the locking clip which holds the cover in place.

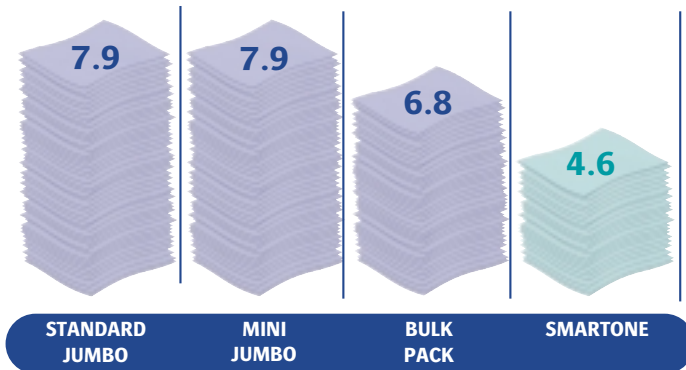

SMARTONE IS AVAILABLE IN BLUE OR WHITE

“ I want my customers to be as impressed with the interior of my rest rooms as they are with my food.”

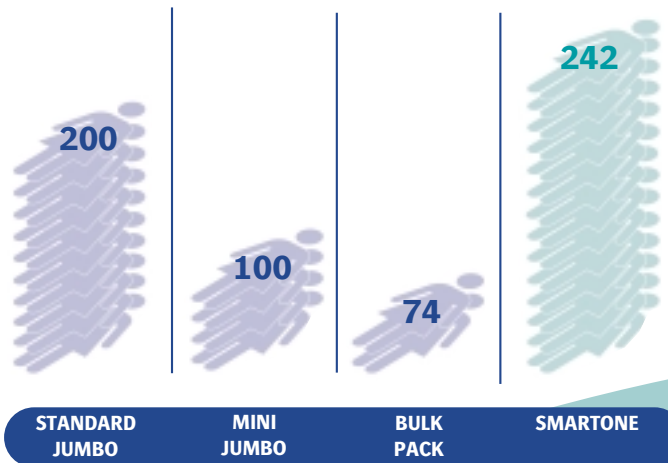

Performance

CONSUMPTION RESEARCH - SHEETS USED*

SmartOne out-performs all other toilet tissue systems in all areas. Trials reveal SmartOne reduces tissue consumption by an enormous 42% compared to Standard Jumbo. In addition SmartOne lasts 16½ hours longer than Bulk Pack before requiring refill and caters for over 142 more toilet visits than Mini Jumbo.*

CONSUMPTION RESEARCH - VISITS BETWEEN REFILLS*
