nextTurn™ Hand Towel System:
Simple & Elegant

A contemporary design that fits anywhere

Modern elegance

The nextTurn™ hand towel system is a stylish, neat and hygienic solution for the washroom. Each towel is cut automatically during use and emerges ready for use. Plus, with a high capacity for over 640 hand towels, the system requires less frequent filling. A hygienic solution, users only touch the paper taken, which significantly reduces the possibility for cross contamination, helping to protect your clients and employees.

Ideal for HoReCa (Hotels, Restaurants and Cafés), the public sector, hospitals and schools

The nextTurn™ hand towel dispenser is a perfect fit for numerous sectors thanks to its ease of use, low maintenance, and elegant design.
